

"I had an amazing time attending your session today and it was nothing short of uplifting, inspirational, and spiritual. It exceeded my expectations, and confirmed my belief that you are indeed "The Real Deal". You were definitely meant to be a motivational teacher, and you do it phenomenally well.

Your presentation is very solid, and having attended and viewed numerous self-help & spiritual seminars (Dr Wayne Dyer, Deepak Chopra, Anthony Robbins), you have it down pat. I loved how you incorporated the 9 components grid and touched upon each attribute. Keep doing what you're doing, you were born to do this, and, as I can attest, it's working!"

"I had the pleasure of attending Kimberley's training on Leadership Presence through the Oracle Women's Leadership group in December 2011. This is the best sales & leadership training I've attended at Oracle so far. The principles shared in this training are beneficial and helpful to my role as a sales representative, as a wife and as a parent. I highly recommend Kimberley to individuals and organizations who want to strengthen their personal/corporate values and ensure their long-term success."
