

HOW TO HAVE A "FORMULA OF SUCCESS" IN 2022

Why Create a Formula of Success?

Look at your goals for 2022. Are they a reach for you and others? What will keep you focused, on track, and be simple enough to measure? That's what your formula does! In doing this make sure to keep it positive and fun!

Key Steps to Creating Your Formula:

1. Use words not numbers because that is what it will take to achieve the numbers you have set.
2. Choose action words that must be in place and done daily.
3. Use simple words once you have looked at your business plan and actions needed.
4. Use as many words as you need to get the results you want for 2022
5. Once you have the words, you just place the specific actions that must be done daily to achieve the meaning of the word. You can be as detailed as you like.

I can assure you once you make the decision to create a "Formula of Success" either for yourself, your company, and/or including others, get people involved to help you! A great exercise to get others' buy-in when you announce and post it!

Happy New Year, and let me know if you have any questions or add-ons that you found were helpful! Have fun!
